Implementation Non-Residential*

OUR ETHOS

Rooted in the creation of greenery, which marries urban spaces with its natural environment. Nature Landscapes prides itself in delivering quality services and creating sustainable green spaces tailored to the needs of our clients. With an extensive portfolio of landmark projects across Singapore, our expertise covers hotels, resorts, residential, commercial, heritage, public parks and green infrastructures.

Since 1981, Nature Landscapes has built a reputation for excellent quality and service by following a philosophy of responsiveness, creativity, reliability and active collaboration.

Outcome Based

Resilience Cost Model

Nature Landscapes is the first in the industry to provide clients with a *Result Oriented Cost Model* as an option to hedge service-pricing against future market forces.

All Solutions Covered

Pre-Condition Survey
Horticulturist Assessment
Arborist Assessment
Plant Health & Soil Care
Plant Disease & Pest Control
Ponds & Basin Care

Integrative Maintenance Programme
Manpower Deployment & Zoning
Quality & Safety Assurance Audit

Potted Plant Rental/Purchase For Events, Offices and Homes & Servicescapes

Digitalisation

Jobsheets & Feedback

Digital technology enables Nature to discover value-producing opportunities. One example is Nature's **One-With-Nature mobile app** that allows clients to give real-time feedback to on-site gardeners.

Creative Solutions

Creative solutions is about going the extra mile for Nature's clientele. We help to build your communities with interactive gardening projects & workshop engagements.
